Description

June Bug is a glossy, dark green metallic glaze that develops small triangular iridescent crystals, like the wings of a beetle. This opaque glaze does not break over texture. For best results apply three even brush coats. Glaze may run.

The Potter's Choice glaze series was designed with the potter in mind! These stunning glazes add fluid colors and effects to smooth or textured ware, with optimal results at Cone 5/6. To use these glazes is to step into different ceramic glaze traditions of many cultures throughout history.

- Reduction Effects in Oxidation
- Variety of Colors and Surfaces
- Cone 5 / 6
- Limitless Layering Combinations!
