Description

Classic stainless steel serrated rib - an essential tool for every potter

Essential for every pottery project

This flexible stainless steel serrated rib is one of those essential tools that every potter needs for any project, large or small, wheel thrown or hand built. Use this rib to draw, scratch, texturise or shape your surfaces, or use it as a scoring tool.

Reliable

This serrated rib is made from quality stainless steel, making it durable and long lasting. It's also an affordable tool to buy in multiples for pottery studios and classrooms.

Easy to use

The rib is lightweight, thin and flexible. It's comfortable to hold and is useful for sculpting, texturising, molding and smoothing. Because it is thin and flexible, it's important to use it carefully as the edges can be quite sharp.
