Description

Keane's Dark Matter is a new dark mid fire clay with a broad cross section of added grog to provide plenty of structure and fleck at cone 5 to 6 (1200c - 1220c). This body stands up well for coil or slab work yet Dark Matter also behaves nicely on the wheel.

Safe to handle and use functionally. Does not contain manganese or copper in its formulation.

Shrinkage 12.5% and

Absorption rate 1.54%

Wet to Dry Shrinkage 4.5%
