Description

Our sharp, metal, single ended ribbon tools can be depended on to help you shape your clay into your creative masterpieces.

Reliable workhorses

These single ended ribbon tools are useful for trimming or turning your wheel thrown pieces, hollowing out a hand built piece, or scraping away clay to reveal your sculpted masterpiece.

Variety is best

At Pottery Supplies we offer a good selection of different single ended ribbon tools – all made with sharp ground steel ribbons of different shapes and sizes and a beautifully polished hardwood handle. This enables you to experiment with different techniques and achieve a wide range of effects in your pottery. Choose a favourite or invest in multiple different tools to take your pottery to the next level.

This particular single ended ribbon tool (PF3102) is a classic pear shaped trim tool. The flat edge is about 35mm wide, the larger curve is about 20mm in diameter, and the smaller curve

has a diameter of about 5mm.

Durable

These single ended ribbon tools are perfect for carving out and shaping the detail of your pottery projects. They are made with a sturdy, polished wooden handle which gives you ultimate control and manoeuvrability. Their sharp ground steel edge makes them versatile for switching between a fine white porcelain through to the groggiest of clay bodies.

Dimensions: Total length 125mm. Wooden handle about 100mm long. Classic pear shaped ribbon with flat edge that is 35mm wide, larger curve that is 20mm diameter and smaller curve that is 5mm diameter.
