Description

Texture brush

Create surface texture

This wire texture brush is made from stiff, coarse bristles useful for scratching across the surface of your greenware to create texture and depth.

Creating strong joins

Use this tool to scratch and slip your pieces together. This tool will allow you to incise scratches that are deep enough to take in slip and allow your pieces to be united firmly after they have dried and been fired.

Ergonomic design

The stainless steel wire brushes are firmly set into a polished hardwood handle, making this tool comfortable and enjoyable to use.

Dimensions: 16.5cm length; 1cm diameter handle
