Description

Shape, mould, texturise and smooth your clay with silicone clay shaper tool

Versatility

Create a wide variety of exciting textured marks effects on your soft clay surfaces with this silicone clay shaper tool. Alternatively, use it for shaping, smoothing, or moulding your pottery pieces, whether they be sculptures or functional wares.

Control and fluidity

The silicone clay shaper tool is designed to be soft enough to be responsive and fluid, yet firm enough to use in sculpting and modelling. Overall, it provides you with extraordinary control in making your pottery projects.

Multiple applications

This tool is delicate, small and convenient for working with ceramic clay, as well as polymer clay and precious metals clay, soft wax and modelling materials, plaster, heavy body paints and

adhesives.

Dimensions: Length 15cm; 1cm diameter wooden handle
